

PLANTATION PROGRAMME-2025

A Plantation Programme was successfully organized on 17th September 2025 at Salipur Autonomous College. The event witnessed enthusiastic participation from students, staff, and various community members, making it a grand success. As part of the programme, more than 1000 trees were planted in and around the college campus, contributing significantly to the cause of environmental conservation. All the officers along with their volunteers from different wings such as NSS, NCC, YRC, Rover and Rangers actively took part in the plantation drive, adding energy and commitment to the event. More than 200 students participated in the programme. The presence of our respected Principal, Dr. Sangita Misra, inspired everyone to make the initiative impactful and sustainable. In addition to the college fraternity, members from UCO Bank and officers from the Block Office also joined hands in this noble cause, strengthening the bond between the institution and the community. To extend the reach of the programme, more than 1100 plants were distributed among the students with the encouragement to plant them in their respective homes, thereby ensuring greenery beyond the college premises.

The programme concluded on a positive and hopeful note, with a collective pledge to protect and nurture the environment for future generations.
